Handbook of Research on Distributed Medical Informatics and E-Health

Edited by: Athina A. Lazakidou and Konstantinos M. Siassiakos, University of Piraeus, Greece

13-digit ISBN: 978-1-60566-002-8

575 pages; 2009 Copyright

Price: US \$325.00 (hardcover + online access*)

Pre-pub price[§]: US \$305.00

Online Access only^{**}: US \$285.00

Illustrations: figures, tables (8 1/2" x 11")

Translation Rights: World

*Paperback is not available. [§]Pre-pub price is good through one month after publication.

^{**}Online access is for libraries and is good for the life of the edition.

“This handbook is an excellent source of comprehensive knowledge and literature on the topic of distributed health and biomedical informatics.”

**-Athina A. Lazakidou,
University of Piraeus, Greece**

Recent developments in e-health have enhanced the healthcare industry as well as expanded the role of medical informatics. These emerging innovations have not only given patients the opportunity for quality of life improvement, but also opened the door to health communication exploration.

The **Handbook of Research on Distributed Medical Informatics and E-Health** provides comprehensive coverage of the most important issues, concepts, new trends, and advanced technologies in healthcare. This enhanced resource of over 35 articles from 84 international experts contributes a compendium of terms, definitions, and explanations for academicians and health professionals worldwide.

Subject:

Bioinformatics; Medical Technologies; Health Information Systems; IT Security/Ethics; Cognitive Informatics

Market:

This essential publication is for all academic, research, and medical libraries, as well as all those involved in integrating the areas of information science, computer science, and healthcare. Technology specialists, hospital administrators, and healthcare professionals will find this handbook invaluable. Researchers, practitioners, clinicians, educators, managers, and students in an array of health and IT-related fields will also benefit.

Excellent addition to your library! Recommend to your acquisitions librarian.

Handbook of Research on Distributed Medical Informatics and E-Health

Edited by: Athina A. Lazakidou and Konstantinos M. Siassiakos, University of Piraeus, Greece

Contributors

Kleopatra Alamantariotou, City University London, UK

Luís Antunes, University of Porto, Portugal

Daniele Apiletti, Politecnico di Torino, Italy

I. Apostolakis, National School of Public Health, Greece

Elena Baralis, Politecnico di Torino, Italy

Ambar Basu, University of South Florida, USA

Graham D. Bodie, Louisiana State University, USA

Christos Bountis, Oxford Radcliffe Hospitals, UK

Philip Brisk, Ecole Polytechnique Federale de Lausanne, Switzerland

Giulia Bruno, Politecnico di Torino, Italy

Rafael Capilla, Universidad Rey Juan Carlos, Spain

Tania Cerquitelli, Politecnico di Torino, Italy

David Chadwick, University of Kent, UK

A. Chryssanthou, Coca Cola Hellenic Bottle and Company, Greece

Jesús Poza Crespo, University of Valladolid, Spain

Ricardo Cruz-Correia, University of Porto, Portugal

Foad Dabiri, University of California, USA

Isabel de la Torre Díez, University of Valladolid, Spain

Alfonso del Río, Universidad Rey Juan Carlos, Spain

Manfred Doepf, Holistic DiagCenter, Germany

Julian Dorado, University of A Coruña, Spain

D. John Doyle, Cleveland Clinic Foundation, USA

Bill Drougas, Higher Technological Institute of Epirus, Greece

Mohan J. Dutta, Purdue University, USA

Ana Ferreira, University of Kent, UK

Raimir Holanda Filho, Universidade de Fortaleza, Brazil

Kashif Hussain, University of Valenciennes et Hainaut de Cambrésis, France

Christina Ilioudi, University of Piraeus, Greece

Stamatia Ilioudi, University of Piraeus, Greece

Roozbeh Jafari, University of Texas, USA

Carolin Kaiser, University of Erlangen-Nuremberg, Germany

Firat Kart, University of California, USA

Anastasia Kastania, Athens University of Economics & Business, Greece

Jonathan Kay, affiliation, country

Sandhya Keeroo, C-DAC School of Advanced Computing, Mauritius

Spyros Kitsiou, University of Macedonia, Greece

Tiffany A. Kozalka, Syracuse University, USA

Dimitris Koutsouris, National Technical University of Athens, Greece

Cheon-Pyo Lee, Carson-Newman College, USA

Sylvie Leleu-Merviel, University of Valenciennes et Hainaut de Cambrésis, France

Miguel López Coronado, University of Valladolid, Spain

María Isabel López Gálvez, University of Valladolid, Spain

Vicky Manthou, University of Macedonia, Greece

Masseroli Marco, Politecnico di Milano, Italy

Ceresa Mario, Politecnico di Milano, Italy

Tammara Massey, University of California, USA

Victor W.A. Mbarika, Southern University, USA

Ramona McNeal, University of Illinois at Springfield, USA

P. M. Melliar-Smith, University of California, USA

Gengxin Miao, University of California, USA

L. E. Moser, University of California, USA

Davor Mucic, Psychiatric Centre Little Prince, Denmark

Shazia Yasin Mughal, University of Valenciennes et Hainaut de Cambrésis, France

Hyduke Noshadi, University of California, USA

Francisco J. Nóvoa, University of A Coruña, Spain

Bradley Olson, SUNY Upstate Medical University, USA

Azizah Omar, Universiti Sains Malaysia, Malaysia

Juan Luis Pérez Ordóñez, University of A Coruña, Spain

Nupur Prakash, GGS Indraprastha University, India

Maria Andréia F. Rodrigues, Universidade de Fortaleza, Brazil

José Antonio Sánchez, Universidad Politécnica de Madrid, Spain

Roberto Hornero Sánchez, University of Valladolid, Spain

Majid Sarrafzadeh, University of California, USA

Konstantinos Perakis, National Technical University of Athens, Greece

Gerald Schaefer, Aston University, UK

Jacob Scharcanski, Universidade Federal do Rio Grande do Sul, Brazil

Mary Schmeida, The Cleveland Clinic, USA

José A. Seoane, University of A Coruña, Spain

Ankur Seth, Adobe Adobe Systems, India

Maria Sevdalli, Higher Technological Institute of Kalamata, Greece

J.P. Shim, Mississippi State University, USA

Konstantinos Siassiakos, University of Piraeus, Greece

Sanjay P. Sood, C-DAC School of Advanced Computing, Mauritius

György Surján, National Institute for Strategic Health Research, Hungary

Žilbert Tafa, University of Montenegro, Montenegro

Roger Tait, Nottingham Trent University, UK

Miguel Ángel Valero, Universidad Politécnica de Madrid, Spain

I. Varlamis, University of Peloponnese, Greece

Noha Veiguela, University of A Coruña, Spain

Maro Vlachopoulou, University of Macedonia, Greece

Anton V. Vladzimirskyy, Association for Ukrainian Telemedicine and eHealth Development, Ukraine

Jelena Vucetic, Alpha Mission, Inc., USA

Daniel Welfer, Universidade Federal do Rio Grande do Sul, Brazil

Stelios Zimeras, University of the Aegean, Greece

About the Editors:

Athina Lazakidou currently works at the University of Piraeus (Greece) as a teaching assistant, and at the Hellenic Army Academy & Hellenic Naval Academy (Greece) as a visiting lecturer in informatics. Prior to that, she worked as a visiting lecturer at the Department of Computer Science at the University of Cyprus (2000-2002). She did her undergraduate studies at the Athens University of Economics and Business (Greece) and received her BSc in computer science (1996). In 2000, she received her PhD in medical informatics from the Department of Medical Informatics, University Hospital Benjamin Franklin at the Free University of Berlin (Germany). She is also an internationally known expert in the field of computer applications in healthcare and biomedicine, with seven books and numerous papers to her credit. She was also editor of the *Handbook of Research on Informatics in Healthcare and Biomedicine*, which is one of the best authoritative reference sources for information on the newest trends and breakthroughs in computer applications applied to healthcare and biomedicine. Her research interests include health informatics, e-learning in medicine, software engineering, graphical user interfaces, (bio)medical databases, clinical decision support systems, hospital and clinical information systems, electronic medical record systems, distributed medical systems, telemedicine, and other applications in medicine.

Konstantinos Siassiakos holds a diploma (1995) of electrical and computer engineer from the Department of Electrical and Computer Engineering Studies, University of Patras (Greece) and a PhD (2001) diploma from the Department of Electrical and Computer Engineering, National Technical University of Athens (Greece). Dr. K. Siassiakos currently works as visiting lecturer at the University of Piraeus at the Department of Informatics and at the Technological Educational Institute of Halkida (Greece). He has worked as an IT consultant at Ministry of Development (General Secretariat of Industry) on the Operational Programme 'Competitiveness' and as a researcher at the Department of Technology Education & Digital Systems, University of Piraeus. He has participated in various European research and development projects. His research interests include Web-based learning systems in medicine and other areas, educational technologies, human computer interaction, quality assurance, management information systems in health organizations and other areas, business process reengineering, and e-government technologies.
